World COPD day observed on 17.11.21. RBSK program to be integrated in disseminating IEC at school level to children.

S. No	Major Milestone	Definition	Targets/ Achievement during FY 2020-21	Targets/Achievements for FY 2021-22
9	Training	Any training conducted for health professionals/workers in the state? Briefly mention	-	Online training for all District Nodal Officer (DNO) regarding Climate change and human health have been carried out
10	Vulnerability Need Assessment	• Has the State started the VNA on climate sensitive disease?	-	Not yet approved in ROP
11	Green and Climate Resilient Healthcare	 Has the State undertaken any assessment for Green and Climate Resilient healthcare facilities and details if any Whether the State is undertaking/undertaken any Green and Climate Resilient healthcare infrastructures development/retrofitting and details if any Any further actions: please specify 	-	Health facility energy survey has been planned in association with PHFI

S.No.	Major Milestone	Definition	Targets/ Achievement during FY 2020-21	Targets/Achievements for FY 2021-22
12	Research	Has the State started any research on climate sensitive disease?		 Data has been collected and analysed to find out any correlation between climate change and vector borne diseases Districts with more number of quarries are studied for occurrence of Silicosis as a result of air pollution. Water quality assessment is carried out by 4 regional water labs to study the water quality changes during monsoon and its impact on water borne diseases.

* Special Achievements or if any to do

- Ministry of Environment & Forest of Government of Tamil Nadu has now been renamed as Ministry of Environment, Forest & Climate Change. This stresses the commitment of state government towards mitigation of climate change and its impacts.
- State Government has announced a five-year plan on increasing the green and forest cover from existing 22% to 33% under Ministry of Environment and Climate Change. Under this, The govt has planned to spend 500 crores per year, totally aggregating to 2500 crores
- Increasing the green cover of PHC has been included as a part of Kayakalp in our state.
- Biodiversity committee is formed in all districts and local bodies to protect biodiversity.
- All existing ponds, lakes, water storage facilities and water course channels are deepened and strengthened under flagship, "KUDIMARAMATHU PANIGAL".

STEPS TAKEN IN TAMIL NADU TO REDUCE AIR POLLUTION

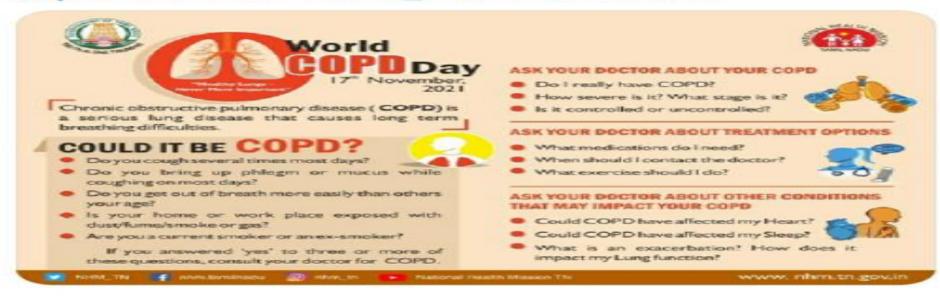

- NOC Should be obtained from State Pollution/District Pollution
 Control Board by all the industries before starting operations.
- Strict emission norms are being enforced in Industries, Hospitals and Waste Treatment plants of local bodies by TNPCB.
- Local bodies are encouraged and incentivized for operating waste to bio-gas plant, thereby reducing the carbon footprints.
- BS IV norms for vehicles is strictly enforced by road transport authorities, especially in Chennai.
